

Husam Abdullah Ahmed Al Jahdhami Bio Data

Retired PDO Engineering Director with over 34 years' experience in the energy sector currently working as a Freelance consultant. Started as an Instrumentation and Control Engineer in 1988 and worked in various engineering roles in PDO before proceeding on a four-year posting in Sarawak Shell Malaysia as a Front-End engineer. This was followed by a few senior roles in PDO e.g., Head of Projects and South Engineering Manager before heading to another posting with Shell as MENA region Projects Contracts and Procurement Manager.

In 2011 was appointed as the PDO Contracts and Procurement Manager and in Jan 2017 was appointed Eng. Director. A Sample of key achievements include:

- Implementation of a rigorous in-Country Value program addressing goods, services and Omanisation within the suppliers and contractors' community.
- Leading a major engineering discipline reorganization where significant cost and project execution efficiencies were realized.
- Developing and implementing a professional career path program for the engineering function
- Improving effectiveness and efficiency by delivering significant cost savings through the capital and carbon efficiency initiative.
